## Gardens & Flower Beds

6 gal. bag (Self-Serve)    1 cu. yd.

**Thunder Garden**                      **\$4.60**    **\$59.50**

Made from compost, rice hulls, gypsum, mineral sand and other nutrient based raw materials. Holds moisture yet drains well. This blend is fully formulated and ready for immediate planting in raised beds with no need for further amendment.

*RECOMMENDATION: Vegetable and flower gardens; raised beds.*

**Purchase Thunder Garden already bagged for \$6.49ea.**

**Double Thunder**                      **\$4.60**    **\$68.00**

Very Fertile, our highest nutrient profile. The original Thunder Garden soil combined with extra compost and gypsum. Excellent when used as an amendment for existing gardens or when added to in ground planting areas to increase nutrient values and helps to decrease soil compaction.

*RECOMMENDATION: Fertility enhancement of existing soils.*

**Ranch Rose**                              **\$4.60**    **\$60.90**

Formulated for maximum loft, even at the bottom of the pot! Made from compost, rice hulls, gypsum and other nutrient based raw materials.

*RECOMMENDATION: Roses, azaleas, container-grown nursery stock, and planter boxes.*

**Landscapers Choice**                  **\$4.60**    **\$45.00**

Compost and trace mineral enhanced soil blend formulated for stability, loft and versatility.

*RECOMMENDATION: Weed free general-purpose landscaping soil.*

## Turf & Lawn Care

**Thunder Dirt**                              **\$4.60**    **\$53.50**

Formulated for new grass installs and native plants. Made from compost, granite and other raw materials. When added to native soils, improves nutrient profile, adds drainage, and breaks up compaction. Unmatched versatility for turf grass subsoil. Excellent for seeding, native grasses and wildflowers.

*RECOMMENDATION: Underlayment for all sod, xeriscaping and native plant landscaping*

**Turf Topper**                              **\$4.60**    **\$60.50**

Excellent for lawns. Carefully selected fine particle materials including gypsum, incorporate well into turf grasses such as Zoysia, Bermuda, and St. Augustine. Very fertile non-burning.

**Sunny Field Formula**                  **\$4.60**    **\$45.50**

Formulated for midrange fertility in a weed-free soil. Composted cow manure and potassium feldspar clay provide richness and water-holding capacity. Does not contain "flash carbon" from ground wood or cellulose material, which have enormous shrinkage and leave soil compacted. Used and approved as a septic-field blend in Travis County.

## Compost & Mulches

6 gal. bag (Self-Serve)    1 cu. yd.

**Dairy Cow Compost**                      **\$4.90**    **\$57.00**

Will not burn plants! Made from the manure of lactating-cows. This compost is weed-free, pathogen-free, and wonderfully shrink-resistant. Can be used as a fertilizer, soil amendment, or lawn dressing.

**Poultry Manure Compost**              **\$4.90**    **\$57.00**

Extremely high fertility and NPK. Excellent as a soil amendment and for periodic enrichment of existing beds and gardens.

**Mushroom Compost**                      **\$4.90**    **\$43.00**

Made from spent mushroom substrate and mixed with cottonseed meal, cottonseed burrs, poultry litter, grains and gypsum.

**Magic Mulch**                              **\$4.60**    **\$55.50**

A rich compost and mulch blend. Perfect for trees, shrubs, gardens. Adds fertility wherever mulch is used.

**Shredded Hardwood.** (2cu ft bag) **\$3.49**    **\$36.00**

Excellent oil-free fibrous mulch. Will NOT float away!

**Shredded Cedar**                      (2cu ft bag) **\$3.49**    **\$31.00**

Good for mulch and erosion control!

**Composted Rice Hulls**                  **\$4.60**    **\$49.00**

Improves acidity and tilth. A wonderful soil amendment

**Pine Bark Mulch**                      (2 cu ft bag) **\$5.00**    **N/A**

Great alternative to hardwood and aesthetically appealing.

## Thunderhead Soil

*Thunderhead Soil Products by Geo Growers*

The first potting soil in Texas to be enlivened with granite and activated with living microbial cultures.

### Regular or Cactus Mix

**4-gallon bag (16qt) ..... \$9.00**

**20-gallon bag (80qt) ..... \$35.00**

### Full Throttle Thunder

Micronutrient Package & Oak Wilt Preventative

**4-gallon bag (16qt) ..... \$98.00**

**2-quart bag.....\$15.00**

## Sand & Gravel

6 gal. bag (Self-Serve)    1 cu. yd.

### SAND

Masonry Sand                              **\$3.00**    **\$51.00**

Concrete Sand                              **\$3.00**    **\$50.00**

### GRANITE

Granite Sand                                **\$3.00**    **\$40.00**

Decomposed Granite 1"                  **\$3.00**    **\$43.00**

Decomposed Granite 1/4"                **\$3.00**    **\$43.00**

Fairland Pink(sm & lge)                  **\$4.60**    **\$46.00**

### GRAVEL

French Drain 1" (3/8 to 1")              **\$3.00**    **\$50.00**

French Drain 2"                              **\$3.00**    **\$57.00**

Granite Pea Gravel (3/8")                **\$3.00**    **\$48.00**

Road Base (1 1/4" Limestone Fill)      **\$3.00**    **\$49.00**

### OTHER

Basalt                                         **\$13.20**    **\$170.00**

Gypsum                                        **\$5.95**    **\$148.00**

## Field Blends & Tree Planting

6 gal. bag (Self-Serve)    1 cu. yd.

**Geo Tree & Berm**                              **\$4.60**    **\$45.50**

Low carbon, high density. Made from compost, granite and other nutrient based raw materials. Low carbon virtually prevents anaerobic microbial fermentation. Eliminates the need to stake and wire trees after planting. Replaces sandy loam when used as a septic-field fill. Used and approved in Travis County. Very stable when wet.

*RECOMMENDATION: Tree planting and installations that exceed one foot in depth or as a septic field blend, also great for berms and swales.*

**Chocolate Loam**                              **\$3.00**    **\$33.00**

Basic topsoil for grading to elevation and back filling. (Not a weed free material)

**First Fill**                                        **\$3.00**    **\$40.00**

A 50/50 mix of Granite Sand and Chocolate Loam. Formulated to be more stable than regular Chocolate Loam. This is **not a weed free blend** and is **MADE TO ORDER**. Be sure to call ahead to place your order before heading out to pick up this material

**Cubic Yard Formula:**

Length (in feet) x Width (in feet) x Depth (in inches)
