(in most cases)

Gardens & Flower Beds

	<u>self-serve 6 gal bag</u>	<u>1 cu yd</u>
Thunder Garden	\$4.60	\$80.85

Made from compost, rice hulls, mineral sand, and other nutrient-based raw materials. Holds moisture, yet drains well. This blend is fully formulated and ready for immediate planting in raised beds with no need for further amendment.

RECOMMENDATION: Vegetable and flower gardens: raised beds

Purchase Thunder Garden already bagged for \$6.49

Double Thunder	\$4.60	\$86.88
-----------------------	---------------	----------------

Very fertile, our highest nutrient profile. The original Thunder Garden soil combined with extra compost. Excellent when used as an amendment for existing gardens or when added to in ground planting areas to increase nutrient values and help decrease soil compaction.

RECOMMENDATION : fertility enhancement of existing soils

Ranch Rose	\$4.60	\$89.75
-------------------	---------------	----------------

Formulated for maximum loft, even at the bottom of the pot! Made from compost, rice hulls, and other nutrient-based raw materials.

RECOMMENDATION: Roses, azaleas, container-grown nursery stock, and planter boxes.

Turf & Lawn Care

	<u>self-serve 6 gal bag</u>	<u>1 cu yd</u>
Thunder Dirt	\$4.60	\$67.50

Formulated for new grass installs and native plants. Made from compost, granite, and other raw materials. When added to native soils, improves nutrient profile, adds drainage, and breaks up compaction. Unmatched versatility for turf grass subsoil. Excellent for seeding, native grasses, and wildflowers.

RECCOMENDATION: Underlayment for all sod, xeriscaping, and native plant landscaping

Turf Topper	\$4.60	\$74.00
--------------------	---------------	----------------

Excellent for lawns. Carefully selected fine particle materials including gypsum, incorporate well into turf grasses such as Zoysia, Bermuda, and St. Augustine. Very fertile, non-burning

Sunny Field Formula	\$4.60	\$53.50
----------------------------	---------------	----------------

Formulated for midrange fertility in a weed-free soil. Composted cow manure and potassium feldspar clay provide richness and water-holding capacity. Does not contain "flash carbon" from ground wood or cellulose material, which have enormous shrinkage and leave soil compacted. Used and approved as a septic-field blend in Travis County.

Compost and Mulches

	<u>self-serve 6 gal bag</u>	<u>1 cu yd</u>
Organic Dairy Cow Compost	\$4.90	\$80.85

Will not burn plants! Made from the manure of lactating-cows. This compost is weed-free, pathogen-free, and wonderfully shrink-resistant. Can be used as fertilizer, soil amendment, or lawn dressing.

Dairy Cow Compost	\$4.90	\$72.50
--------------------------	---------------	----------------

Will not burn plants! Made from the manure of lactating-cows. This compost is weed-free, pathogen-free, and wonderfully shrink-resistant. Can be used as a fertilizer, solid amendment, or lawn dressing

Magic Mulch	\$4.60	\$68.75
--------------------	---------------	----------------

A rich compost and mulch blend. Perfect for trees, shrubs, gardens. Adds fertility wherever mulch is used.

Shredded Hardwood	\$3.50	\$49.00
--------------------------	---------------	----------------

Excellent oil-free fibrous mulch. Wil NOT float away!

Shredded Cedar	\$3.50	\$40.95
-----------------------	---------------	----------------

Good for mulch and erosion control!

Composted Rice Hulls	\$4.60	\$61.95
-----------------------------	---------------	----------------

Improves acidity and tilth. A wonderful soil amendment

Thunderhead Soil*

Thunderhead Soil Products by Geo Growers

The first potting soil in Texas to be enlivened with granite and activated with living microbial cultures.

Regular or Cactus Mix

4-gallon bag(16qt).....\$9.00

10-gallon bag (40qt).....\$20.00

Full Throttle Thunder

Micronutrient Package & Oak Wilt Preventative

4-gallon bag(16qt).....\$9.00

2-quart bag\$15.00

Sand & Gravel

	<u>self-serve 6 gal bag</u>	<u>1 cu yd</u>
SAND		
Granite Sand	\$3.00	\$48.00
GRANITE		
Decomposed Granite 1"	\$3.00	\$52.00
Decomposed Granite ¼"	\$3.00	\$52.00
OTHER		
Basalt	\$13.20	\$175.00

Field Blends & Tree Planting

	<u>self-serve 6 gal bag</u>	<u>1 cu yd</u>
Geo Tree & Berm	\$4.60	\$55.50

Low Carbon, high density. Made from compost, granite and other nutrient based raw materials. Low carbon virtually prevents anaerobic microbial fermentation. Eliminates the need to stake and wire trees after planting. Replaces sandy loam when used as a septic field fill. Used and approved in Travis County. Very stable when wet.

RECOMMENDATION: Tree planting and installations that exceed one foot in depth or as a septic field blend, also great for berms and swales

Cubic Yard Formula

Length(in feet) x Width(in feet) x Depth(in inches)

324

Amendments

Please feel free to ask us how to amend your soil after your first growing season. Plants may use nutrients that need to be replaced.
